Regarding claim 12, Etesse teaches "receiving a web page ... data types" (ie., user accesses course web page with hyperlinks and buttons to various content areas; cover page drawing, item 120)(paragraph 36).

Etesse teaches "classifying ... elements" (ie., course listed according to category)(para 147).

Etesse teaches "determining ... data elements" (ie., course content – lists everything related to a course)(para 149, 150; fig 7, 9 item 900).

Etesse teaches "outputting ... operations" (ie., course content ... browser)(para 149; fig 7, item 900).

Etesse teaches "extracting data ... data elements" (ie., list of courses once selected by user user will be automatically linked to a web page associated with that course, for which data is extracted from the database to display on the web page)(para 147; fig 6, items 600, 602, 604, 606, 608, 610).

Etesse teaches "receiving a selection ... operations" (ie., upon user selection of a course the web page the courses are listed according to a category, thus the browser receives the data for display)(para 147, fig 6, item 600...).

response to the customized advertisement, which are customized based on the user's demographic profile and tracking of user responses to the advertisements, the user selects on advertisements that are based on the customization based on the previously selected ads. It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Ettesse to include displaying future advertisements customized based on a user profile/usage history record as taught by Angles, providing the benefit of an on-line advertising service which can custom tailor specific advertisements to particular consumers and track consumer response to the advertisement (Angles, col 2, lines 49-53).

Regarding claim 13, Etesse teaches "processor, " " storage facility ..." (ie., processor; memory)(page 22, claim 13).

Regarding claim 14, Etesse teaches "user terminal ... determine ... data elements" (ie., course content – lists everything related to a course)(fig 1A, item 70 is a user terminal; para 149, 150; fig 7, 9 item 900; drawing on cover page, items 120, 130).

Etesse teaches "outputting ... operations" (ie., course content ... browser)(para 149; fig 7, item 900).

advertisement, which are customized based on the user's demographic profile and tracking of user responses to the advertisements, the user selects on advertisements that are based on the customization based on the previously selected ads. The Examiner interprets advertisement provider's customization in response to user's actions as equivalent to classification of data as being of a type; on a wireless data transmission on a network)(col 3, lines 3-9, lines 10-15, lines 45-50; col 9, line 41).

4-2) Claims 21, 32 are rejected under 35 U.S.C. 103(a) as being unpatentable over <u>Etesse</u> et al (as cited above), in view of <u>QuickClick</u> (1/5/01, as provided by applicant in the IDS).

Regarding claims 21, 32, Etesse does not teach specifically, but QuickClick specifically teaches "selecting ... operations" (ie., "alt-clicking" to select a word)(page labeled "How it Acts").

Etesse does not specifically teach, but QuickClick specifically teaches "displaying the selected ... mode" (ie., window pops up with a list of categorized links)(page labeled "What it delivers").

Etesse does not specifically teach, but QuickClick specifically teaches "displaying ... second mode" (ie., the unselected words remain in the background browser in another window)(page labeled "What it delivers" shows QuickClick displaying with "NBCi").

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Etesse to include a selection means that pops up in another window based on the selection and show the unselected words in the background as taught by QuickClick, providing the benefit of allowing users to pick the type of information they want and quickly getting to it (QuickClick, page labeled "How it acts") and displaying user-specified locale information in frames (Etesse, Abstract).

Response to Arguments

Applicant's arguments with respect to claim 12-18, 20-47 have been considered but are most in view of the new ground(s) of rejection. The thrust of Applicant's

arguments deal with the amended portions of the claims. To deal with these amendments, the Examiner introduces the Angles reference (see above rejection for details).
